ARTERO
 PROFESSIONAL LINE

ONE AND ONIX

Artero One is a great introductory line to the Artero shears, with a 440C Japanese Steel measured at 57 HRC Hardness and a razor straight edge. The shank is semi offset and is well balanced, avoiding hand fatigue. Artero Onix is lightweight and well balanced, the handle is semi offset and fits in your hand easier than most. Artero Onix is made of 440C Japanese Steel measured at 60 HRC Hardness with a razor/straight edge. Artero does a great job in steel alignment by using precise technology to quality check each shear.

WHY GROOMERS CAN'T LIVE WITHOUT THESE BRUSHES!

Demat poodles in half the time! The larger pins and cushioned pad grab hair like no other brush. Removing thick trapped undercoat on densely coated dogs, becomes a breeze. Handmade in Germany with unsurpassed quality workmanship, this brush is on every groomer's wish list and worth the price tag.

What is the difference between the Big G and the Big K?

The Big G (coral) has 40% more pins than the Big K (black). This allows for the Big G to do more work in removing fine knots, while the Big K penetrates the coat better—much like the fine and coarse side of a comb.

KOOL PUP

All the power you need in a tiny convenient size. Quiet yet powerful with almost as much air force as the Original Kool Dry, and only 6" square - perfect for exhibiting and small breeds. With the turn of a knob, you have the opportunity to dry at multiple speeds. This dryer has the ability for detailed grooming and can force blow the water out of the thickest coats. Includes a 8' hose and two nozzle attachments - Concentrator and Diffuser.

KOOL DRY

Housed in a new aluminum case, this variable-speed grooming dryer has over 200 air flow positions. The inner structure contains a silent build with sound-absorbing foam throughout the rust-proof housing. With the improved technology, Smart Start programming starts with 2 to 3 amps and peaks at full speed at 9.6 amps - have the power of a force dryer, with less electrical draw. Includes an 8' hose and two nozzle attachments - Concentrator and Diffuser.

KOOL DRY EXTREME

Compact yet powerful, an absolute must for the mobile groomer. Extremely lightweight, low amp and a high CFM. The variable speed allows for anything from fluff drying to full force dry and accounts for behavior - keep it low for timid dogs and allow for acclimation to sound and airflow. The powder-coated finish and stainless steel corners are scratch-resistant and durable. Includes an 8' hose and two nozzle attachments - Concentrator and Diffuser.
